

INDIA IN THE YEAR 2020

"The Beginning of a New World in Business"

FranTech Asia brings 3 G World Trade Centers

World Trade Center is a powerful brand. In the global real estate sector very few projects exist which have attained the heights of brand recognition and success to the measures of WTC.

This concept which was developed 35 years ago has been constantly expanding and growing. The brand value of WTC is so high that it plays a vital role in turning the economy of a city where it is present. The WTC is thus considered-

- **An Economic Development Magnet**
- **A Gateway to the world**
- **A signature Real Estate Project**

The 3G WTC is a new kind of commercial real estate which integrates multiple operations at one place with offices, showcases, exhibit program, import/export marketing, sales and product distribution and other support services for business processes.

WTC 3G -World Trade Center 3G Development Ltd. is implementing a value-added investment strategy specifically designed to fund selected World Trade Center buildings and affiliated facilities which will include product display and exhibition facilities as well as a full range of existing World Trade Center services.

The WTC 3G prototypes is a venue for the latest generation World Trade Centers which provide maximum value to the tenants and an appropriate return the investors.

The mission of WTCA is to encourage world trade by fostering and supporting the development and operation of World Trade Centers in every region of the world.

The specific purposes of WTCA are as follows:

- To encourage the expansion of world trade
- To promote international business relationships and understanding among nations
- To foster the increased participation in world trade by developing nations
- To promote and further the concept of World Trade Center and to act in pursuance of these goals
